Physician Health as a Professionalism and Whole Systems Issue

Do you know the relationship of physician health and well-being with patient safety, delivering of quality care, medical education and the healthcare system?

Join us at this webinar to learn why physician health is not only an individual matter but also team and whole organizational issue, how it impacts medical practice and performance in education, the resources and support available for your well being, as well as how you can become better role models and educators.

(This webinar is pending approval for application of CME points.)

**REGISTER
NOW!**

questions related to physician health well-being and professionalism to ADD@duke-nus.edu.sg. Registration closes on 21 August 2020.
