NAVIGATING THROUGH ETHICAL AND PROFESSIONAL DILEMMAS IN COVID-19

Ethical dilemmas and professionalism issues have arisen from the current Covid-19 situation, bringing new challenges to clinicians' work and well-being. How do I make medical decisions in times of uncertainty? How do I maintain doctor-patient-family relationship in this period of isolation? What are the professional competency and conducts of clinicians taking care of Covid-19 patients? Are there principles on public health ethics and allocation of resources?

20 JUN 2020 (SAT)

10AM TO 12PM

Zoom*

**Details will be provided after registration.*

Join us at this webinar to alleviate your concerns, share your stories and navigate through this challenging time with the sharing of experiences and wisdoms with senior clinicians. (This webinar is pending approval for application of CME points.)
