RESEARCH GRAND ROUNDS

Practical Steps Towards Commercialising Research

The commercialisation of biotech research is a long and challenging journey, but the rewards can be substantial. Translating research from the lab to the clinic also requires a significant investment of time, resources, and expertise.

Join Mr Ng Choon Peng and Mr Christopher Tan from Outram Bio as they discuss the various ingredients required to start a company, and the obstacles that can arise along the way. They will also share their respective experiences in entrepreneurship and venture capital, how it led them to form Outram Bio, and offer insights into what it takes to succeed.

Wednesday, 19 Apr 2023
12:30pm to 1:30pm
via Zoom Webinar

*CME and CPE points
may be awarded.*
