

Biobiz 2018

26 May 2018

Biobiz 2018

Biobiz is an annual biomedical conference, which aims to provide an interactive platform that enables aspiring graduates and undergraduates to gain insights from industry professionals on the myriad of career opportunities available in the biomedical and biopharmaceutical industry.

Professor John Lim, Executive Director of CoRE, was invited to moderate a panel discussion on the topic of "Skills of the 21st Century". The panel speakers were Ms. Anh Bourcet (Johnson & Johnson), Dr. Ong Siew Hwa (Acumen Research) and Dr. Carl Firth (Aslan Pharmaceuticals). Discussions with the panelists revolved around the skillsets that should accompany graduates upon joining the workforce and the progress made so far in Singapore's Bio-Industry.

Held at the University Cultural Centre on 26 May 2018, this is the 12th run of the conference, organised by the National University of Singapore Biomedical Engineering students and co-hosted by the Employment and Employability Institute.
