

#Thankstoyou
The CoRE Campaign

REGULATORY EXCELLENCE FUND

Enabling a world where everyone has access to good, safe and effective health products

At the Duke-NUS Centre of Regulatory Excellence (CoRE), we promote the advancement of excellence in regulatory science and practices to safeguard the health and wellbeing of patients and populations.

With the ongoing COVID-19 pandemic, this mission is even more critical now. The need to ensure robust regulatory frameworks for innovative health products encompassing diagnostics, therapeutics and vaccines, is crucial to keep up with the fast pace of biomedical research and development.

With the support of the initiatives of the Centre since 2014, the Asia-Pacific region has made great strides in enhancing health and regulatory systems to meet the needs of its

people. , However, much work remains to be done as the region collectively faces new public health challenges. For this purpose, CoRE has launched the **Regulatory Excellence Fund**.

Contributions to the Regulatory Excellence Fund will play an important role in enabling the Centre to sustainably address region-wide issues, explore new opportunities for innovation and impactful change, and promote long-lasting cooperative solutions.

Investing in the Future of Healthcare

Your unrestricted gift provides a flexible and powerful form of support by allowing funds to be deployed when and where they are needed most. This is critical to meeting emerging demands and unanticipated opportunities.

Moving the needle to enable rapid, regulatory behavioural changes

Your Gift

Our
Patient-Centric
Effort

**Establishing
Regulatory
Convergence**

**Promoting
Thought
Leadership**

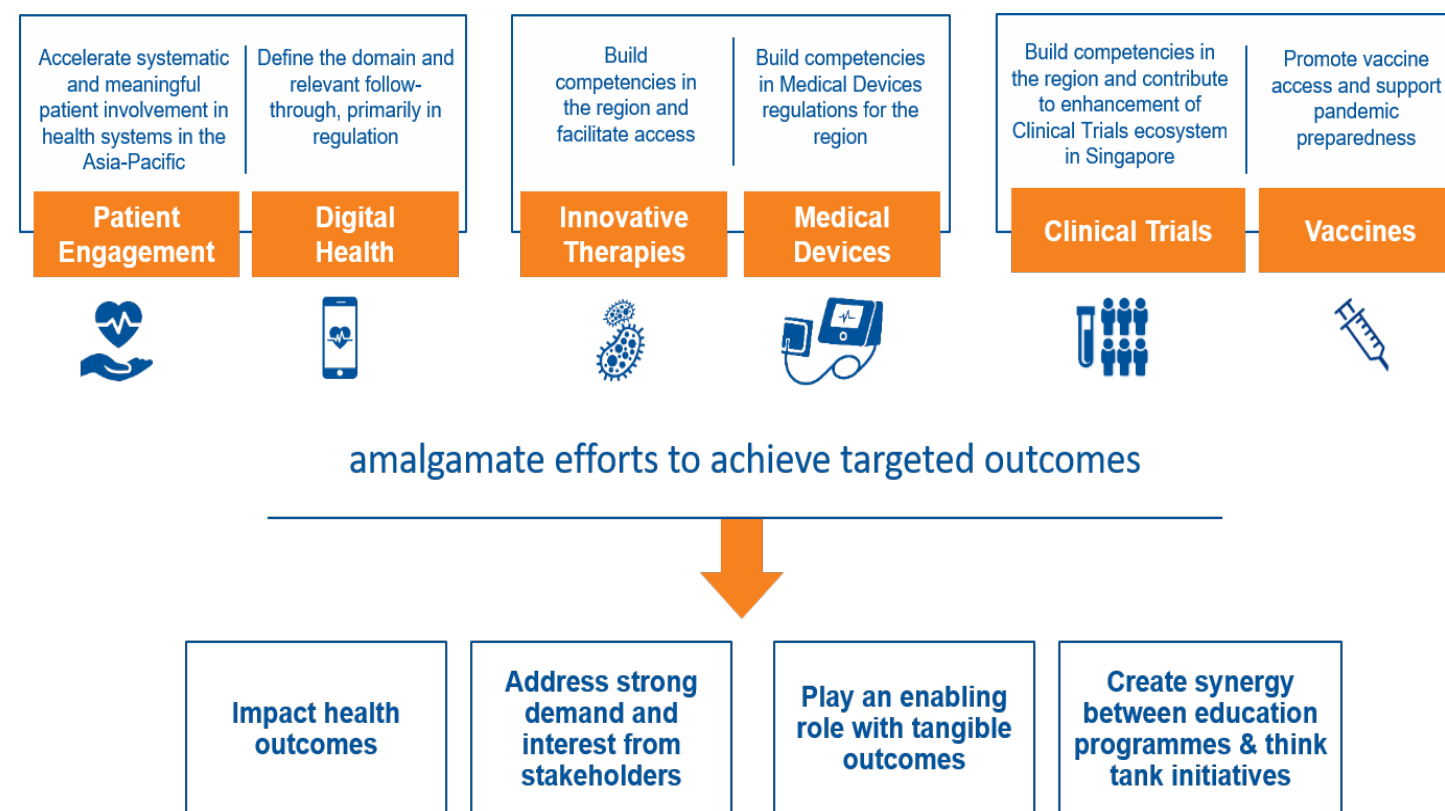

**Capacity
Building**

Strengthen ties with Singapore-based technology developers, engage experts and empower long-lasting, cooperative solutions developed by regional and international Regulatory Authorities, Governments, Academia, and Industry working together.

Promote innovation in regulatory science and health policy by supporting targeted research, convening multistakeholder roundtables across all sectors and publishing reports and publications in CoRE's six key focus areas of Patient Engagement, Digital Health, Innovative Therapies, Medical Technology, Clinical Trials and Vaccines.

Build competencies, Develop more case-based learning materials, improve operations, and attract internationally-recognised faculty and thought leaders for CoRE's well-received education and training programmes that target strengthening of professionals and systems across the region, especially in emerging economies.

CoRE as an Enabler

Why Give?

Contributions will facilitate meaningful regulatory behavioural changes, by allowing CoRE to convene thought leaders and innovators to generate roadmaps and champion ideas that advance regulatory practice including in new emerging topics. Contributions to this fund will also continue to elevate the region's regulatory capabilities by enabling the Centre to constantly enhance education programmes, as well as address new needs and imbue future readiness among the region's regulatory and healthcare professionals, academics and researchers.

Inspired by Professor Sir Alasdair Breckenridge's immense contributions to foster regulatory excellence in South-East Asia and Asia-Pacific through CoRE, the Regulatory Excellence Fund will honour his legacy by advancing CoRE's vision and mission through unrestricted donations

that promote and resource the Centre's think-tank and capacity building initiatives. These funds will be an investment in CoRE's work and strengthen its programmes by sustaining the Centre and its dedicated team of thought leaders, educators, researchers and administrators.

This Fund complements the Centre's other fee-based income streams, and will empower CoRE to help address unforeseen public health emergencies and promote the safety and well-being of populations across South East Asia and Asia Pacific.

If you would like to be part of these endeavours where performance and purpose impacts patients, populations and broader health systems, please consider donating to this Fund.

Benefits of Giving

1

Tax Benefits

Tax deduction benefits for tax residents in Singapore and gifts to NUS American Foundation is applicable.

2

Dollar-For-Dollar Government Matching

Your gift will double in value right at the onset. It will attract a dollar-for-dollar matching grant from the Government.
