This symposium focuses on translational medicine, particularly that which involves clinical application of advances in cellular and molecular biology and genetics. The sessions will explore investigational medicine from the vantage point of clinician-scientists, and the theme running throughout the entire symposium is that of human investigation.

CO-CHAIREDBY:
Patrick CASEY, Ph.D.
Duke-NUS Graduate Medical School
John SUNDY, M.D., Ph.D.
Duke University Medical Center
Darren LIM, MBBS, MRCP
SingHealth
