Message from Dean Ranga Krishnan

Since the inception of Duke-NUS Graduate Medical School seven years ago, I am pleased to report that our Research activities have made great strides. We have attained prestigious awards, hosted world-class conferences & symposia, published extensively in peer-reviewed journals, clinched competitive research funding, registered patents and inventions, and are actively collaborating with several local and international entities. We hope the Research Achievements-At-A-Glance on the next page gives you a quick visual capture of these updates.
Partnership with MOH in Health Services and Palliative Care Research
- 40 invention disclosures
- Registered 2 trademarks
- Filed 26 patent applications
- Awarded 3 licences

Publications
> 700 research papers in peer-reviewed journals

Faculty Growth
111 as at 31 May 2012:
- 56% hold full time appointments
- 21% hold dual appointments with Duke University
- 18% hold dual appointments with SingHealth entities
- 42% are clinically trained

Clinician Scientist Awards
- 4 STaR Investigator Awardees
- 11 Clinician Scientist Awardees
- 5 Transition Awardees

Competitive Research Funding
S$140.55M as at 25 June 2012 with Annual competitive research funding in excess of S$25M

Established Singapore Dengue Consortium with DSO National Laboratories and other entities

Collaboration with AstraZeneca AB, Sweden on ceramide synthases & metabolic disease

Formed Centre for Quantitative Medicine – an academic home for SingHealth/Duke-NUS statisticians and epidemiologists

Formed Centre for Cognitive Neuroscience with major imaging capabilities

Created 60 Open Access Voice-Annotated Presentations on Clinical Research Principles

Influenced Inviragen (USA) to set up R&D facility in Singapore

Collaborative research with GSK

Collaborative research with Abbott Nutrition R&D Singapore

30 SingHealth clinical researchers trained through the Khoo Scholars Program over 3 years

Major advances in genomics of gastric, liver, lung and blood cancers
